Lincoln County Commissioners Meeting April 13, 2020  
Election Integrity

Montana Senator Theresa Manzella April 7, 2022 Montana Daily Gazette Opinion Editorial

"Election integrity is heavy on the hearts and minds of your conservative Montana legislators, as well as the vast majority of citizens in our country. Despite passing six good voter integrity laws last session, we have identified many more election-related vulnerabilities in our state statutes that need to be addressed prior to the 2022 midterm elections. Citizenship confirmation, a lack of verification of signatures at the polls, and timely sharing of death records are just a few of the issues we believe need to be statutorily secured.

Understanding today's technology and the ability for wireless connectivity on the world wide web (through something as small as a sim card) is another area requiring credible, expert counsel. We, therefore, have been petitioning for a special select legislative committee to review our state statutes before the midterm elections to address identified vulnerabilities and secure the chain of custody from the voter registrations and rolls to the post-election audit."

Unfortunately, the enforcement of several of the voter integrity laws passed in 2021 has been blocked by Yellowstone County District Judge Michael Moses.

I am here today as a member of the Republican Women's Club for Lincoln County to express my concerns about election integrity in Lincoln County.

- Citizenship verification (Montana DMV issues driver's licenses to illegal aliens)
- Potential for fraud with early voting (chain of custody), mail in voting (USPS lost/delayed, old addresses, no verification of who filled in ballot), absentee voting (no verification of who filled in ballot, who will view video surveillance of remote ballot boxes?), ballot harvesting (intimidation, no verification of who filled in ballot)
- The use of hardware and software supplied by out of state vendors such as ES&S
- Allowing vendors such as ES&S access to our polling places on election day
- Accepting election related money from any source other than voters

Remedies that I would like to see put in place:

- End early voting and mail in voting. Restrict absentee voting to the disabled and those who will be out of town on election day
- Terminate the use of ES&S hardware and software (exception ExpressVote for the disabled)
- Utilize ballots that cannot be counterfeited (photocopied or printed by others)
- Perform a bipartisan citizen led hand count of all ballots as per MCA Title 13 Chapter 15 Part 2 Vote Count Procedures [13-15-206. Counting votes -- uniformity -- rulemaking -- definitions, MCA \(mt.gov\)](#)
- Bar participation/attendance by ES&S representatives from all election related activities
- Have Election Administrator transmit county election results to Montana Secretary of State using password protected SOS provided Election Night Reporting System that Election Administrator manually logs into and enters results

Veronica expressed that she feels the Lincoln County 2020 General Election was secure and that there was no fraud, but commented that her concern is that Montana law is eroding election security and gave an example, such as Costco cards used as voter ID.

Dianne requested the commissioners review 13-17-103 MCA, Required specifications for voting systems.

Commissioner Teske commented that he has several election laws he has been reviewing but did not have that one.

Commissioner Letcher asked for any further public comment.
