# INFORMATION

October, 2014

The KVH's TracVision L2 Satellite TV System Wins RoadStar's "Most Valuable Product" Award for mobile satellite TV and is considered one of the most advanced land-mobile satellite tracking systems available today. DIRECTV® and DISH Network™ systems transmit digital audio and video data from land-based transmitters to a satellite "parked" above the equator. Each satellite relays the signals in spot beams covering the continental United States.

TracVision L2/S2 automatically identifies, locks onto, and receives signals from the appropriate satellite. TracVision S2 is designed for stationary use only; TracVision L2 works while your vehicle is at rest *and in motion*.
