UTILITY EASEMENT
The undersigned hereby grants unto each and every person, firm, or corporation whether public or private, providing or offering to provide telephone, electric power, gas, cable television, water or sewer service to the public, the right to joint use of an easement for each construction, maintenance, repair and removal of their lines and other facilities, in, over, under and across each area designated on this plat as "Utility Easement" to have and hold forever.

Note: Purchasers of any lots in this subdivision will be required to waive the right to protest the creation of a Special Improvements District (SID), based on benefit, for the purpose of financing capital improvement projects. Such improvements include, but are not limited to: paving, curbs and gutters, the installation for non-motorized facilities, street widening, and drainage facilities. Acceptance of a deed for a lot within the subdivision constitutes the assent of the owners to any future SID that identifies the specific capital improvements for which protest is being waived. A waiver of the right to protest may not be valid for a time period longer than 20 years after the date that the final subdivision plat is filed with the Lincoln County Clerk and Recorder.
