While this survey was accomplished utilizing the Montana State Plane Coordinate System based on NAD 83 datum, values shown on this certificate have been rotated to true meridian and grid distances have been scaled up to 3110.0 foot elevation by combine sea level and scale factor of 0.9998460. Montana State Plane Coordinate System (NAD 83) computed value for the corner of Secs. 29, 30, 31, and 32, Y=487,754.4M X=178,140.4M based on tie to 'Ant' mark and 'Ant Az' mark (N.G.S. 1986 published values).

The found iron pipe at the south 1/4 Sec. 30 set by I.M. Tilotson was not accepted this survey due to additional found original evidence. See Certified Corner Recordation filed Lincoln County Courthouse for further information. No record of Certificate of Survey Found, showing section 30 subdivision. I.M.
