PURPOSE OF SURVEY

The purpose of this survey is the resurvey of record parcels of land, Lots 1, and Lots 4-8 of Glardon Subdivision Plat No. 131 and the amendment of Certificate of Survey No. 2797, filed April, 1999; the reestablishment of obliterated corners and marking property boundaries. Therefore no division of land is hereby created and is exempt from review as a subdivision.

METHOD OF SURVEY

A Nikon total station and HP data collector was used with closed traverse procedures to tie previously set controlling monuments and property corners.

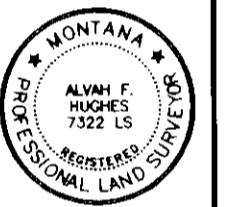

BASIS OF BEARING

The basis of bearing for this survey is N89°55'00" E, as shown on Glardon Subdivision Plat, between the south 1/4 and the southeast section corner, Section 28.

SURVEYOR'S NOTES

Upon further review of the Glardon Subdivision Plat and additional found property corner evidence, I amend Certificate of Survey No. 2797, as shown hereon. I have accepted newly recovered unmarked property corners as nearest and best evidence of the lot location as shown on said Plat. The present reestablishment of lost corners is more consistent with the occupational lines and eliminates potential encroachments caused by the earlier Certificate of Survey.
