2007 remonumentation by Michael J. Drenth 10684LS:

Found solid remains of original General Land Office pine post, with axe marks, 13 inches below ground level, in a 4" squared hole of rotted debris. From which:

A larch stump, 20 inches diameter, bears S. 44 3/4° W., 6.3 feet distance, with log along side.

In the position of the original General Land Office pine post, I set an aluminum pipe, 2 1/2 inches diameter, 27 inches in the ground, with a 3 1/4 inch diameter aluminum cap marked as shown. I set a memorial, a railroad spike, 6 inches long, 27 inches in the ground, below the pipe monument.

From which I establish 2 new bearing trees:

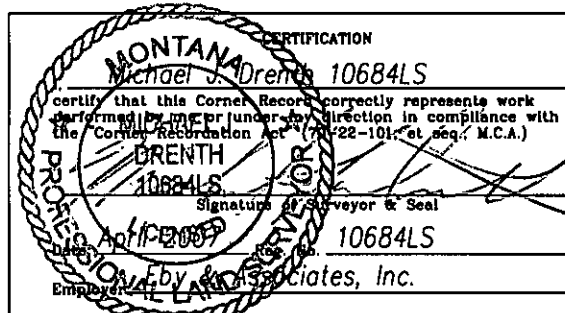

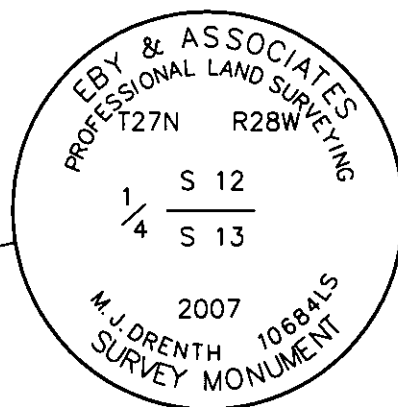

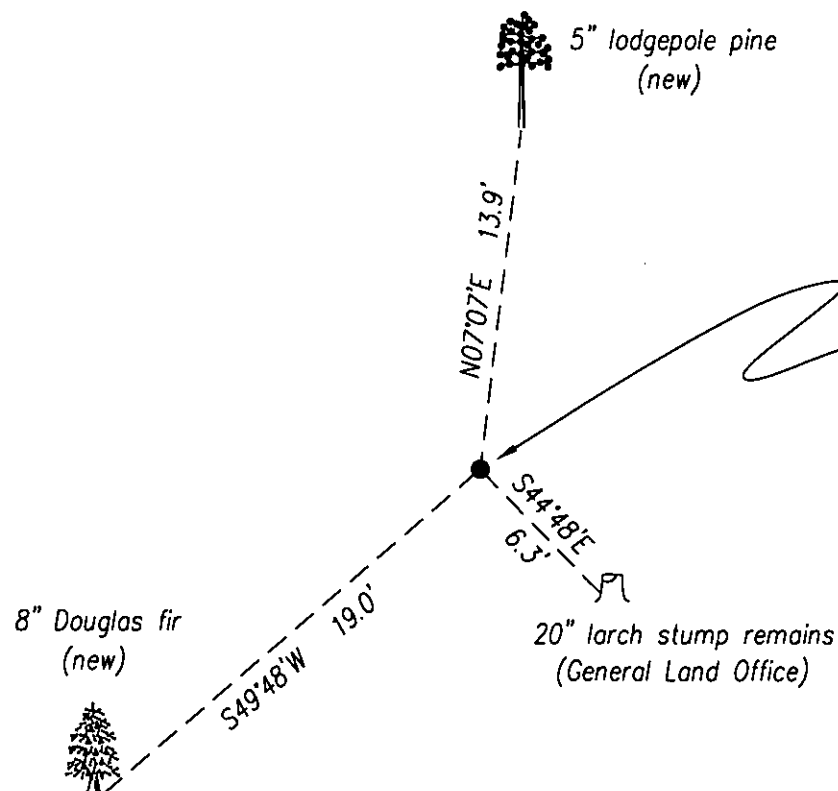

A lodgepole pine, 5 inches diameter, bears N. 7°07' E., 13.9 feet distant, scribed "1/4 S 12 BT".

A Douglas fir, 8 inches diameter, bears S. 49°48' W., 19.0 feet distant, scribed "1/4 S 13 BT".

I axe snow blazes, paint the blazes and faces red, and attach Land Survey Monument signs on both trees.

All bearings and distances measured with total station instrument, geodetic north.

Wood post remains removed for education purposes at the Land Surveying program at Flathead Valley Community College, Kalispell, Montana.
