| | Bearing N19°E, 4.2 ft. dist. from true corner position, found a 6 in. by 6 in. wood post protruding 1 1/2 ft. above ground, mkd. Fletcher on the SE face and USFS on the SW face, found no references. I reject the found corner post as ther is no record of its establishment by correct procedures and its discrepency with the true corner position. At the determined true corner position: Set an aluminum rod, 3/4 ins. diam. by 30 ins. long, set flush with the ground, with an attached 3 1/4 ins. diam. aluminum cap, marked: | | | | | | | | | | | | | | | | | | | | | | |
