1997 Rehabilitation by Jane L. Eby. 8694ES:	
The position of the corner falls in a washed—out portion of the riverbank.	
I found the BLM pipe monument described in the 1967 record disturbed: unsidedown, burie	d at the
bottom of the wash at water's edge, marked as shown. I found no evidence of the BLM bearing trees as their positions also fall in the washed—out	rovine
I found the remains of the original GLO trees as follows:	
A Douglas fir stump, 13 inches diameter, visible scribing "T31N R33W S18", with bearing to A Pine stump, 19 inches diameter with no visible scribing.	ree sign attached
I reset the BLM monument as determined from the remains of the original bearing trees an	nd .

A bougids fil, 9 litches bbil, bears 3. 34 E., 40.6 feet distance, scribed X B1.	
Measurements were made with a steel tape and Silva hand compass using 19' declination.	
I painted blazes and faces red. I attached Land Survey Monument signs to the new trees	and pine stump.
See Certificate of Survey No. 2573 for ties to adjacent controlling section corners.
