CERTIFIED CORNER RECORDATIONCorner C-E 1/16 Section 36 T. 35N R. 26W P.M.M. LINCOLN CountyG.L.O. Record:

This interior section subdivisional corner was never set by G.L.O. or other original government survey, but its position can be calculated by dimensions shown on the official government plat for this township.

Subsequent Record:

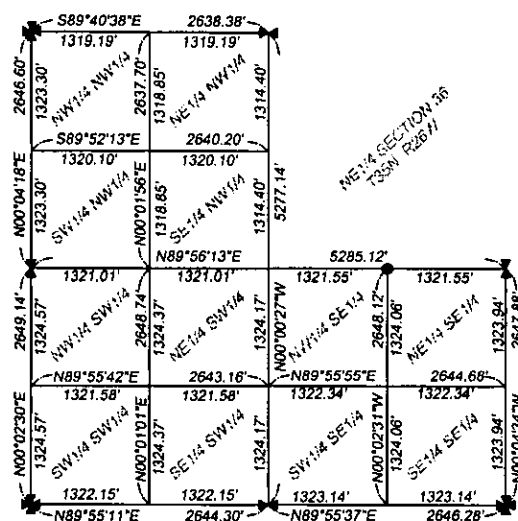

Certificate of Survey No. 1698, Tom Sands, 7975S. Certificate shows that corner position was established, but a monument was not set. Proportional methods used to establish the corner position were shown on sheet 2 of 2, and were verified as being correct.

New Monumentation Established:

At the calculated position for the corner, as established by proportionate measure and as shown on the attached section subdivisional diagram, I set a Berntsen flared base monument (model #A1NBF30), which consists of a 2-3/8" diameter by 30" long flared aluminum pipe with a magnet and 3-1/4" diameter aluminum cap attached to the top, stamped as shown in detail below. Position for corner falls in a cultivated field, therefore monument was set so that the top of cap is buried 12" below the ground surface.

Section Subdivision

Section 36, Township 35 North, Range 26 West

**SKETCH OF CORNER****CERTIFICATION**I, Michael R. Rice

certify the information shown herein is true and correct.
