METHOD OF SURVEY A Trimble R10-2 GNSS system and Trimble S6 Total Station were used to tie previously established controlling corners Byron Sanderson & Calen Williamson,

BOUNDARY ADJUSTMENT NOTE

May through November, 2023.

The area that is being removed from one tract of record and joined with another tract of record is not a tract of record. Said area shall not be available as a reference legal description in any subsequent real property transfer after the initial transfer associated with this certificate of survey on which said area is described, unless said area is included with or excluded from adjoining tracts of record.

PURPOSE OF SURVEY AND OWNER'S CERTIFICATION We, LINCOLN COUNTY PORT AUTHORITY, record owner, hereby certifies that the purpose of this survey and division of land is the aggregation of parcels and boundary line adjustment pursuant to MCA 76-3-207(2)(f): "aggregation of parcels or lots when a certificate of survey or subdivision plat shows that the boundaries of the original parcels have been eliminated and the boundaries of a larger aggregate parcel are established. A restriction or requirement on the original platted lot or original unplatted parcel continues to apply to those areas", AND MCA 76-3-207(2)(a) relocation of common boundaries and is therefore exempt from subdivision review pursuant to MCA 76-3-207(1)(e): "divisions made outside of platted subdivisions for the purpose of relocating common boundary lines between adjoining properties". We further certify that Parcels A, G, H, I, J, & K, are each over 20 acres in size, exclusive of public roadways, and therefore exempt from sanitation review by

the Department of Environmental Quality pursuant to MCA 76-4-102(23). We also certify that Parcels B, C, D, E, & F are each exempt from sanitation review pursuant to ARM

storm drainage, or solid waste disposal, if no facilities will be constructed on the parcel"

17.36.605(2)(a): "a parcel that has no facilities for water supply, wastewater disposal,
