- Robin commented there is no resolution but wanted to briefly discuss and talk about private property burials. Montana allows burials on private properties. Robin commented that for improved public service, she wants the public to be aware of a document called Private Family Burial Grounds Notice that can be recorded, to acknowledge burial location and help protect the burial site from disturbance or destruction into perpetuity, let's say 50+ years down the road. The Clerk & Recorder's Office tracks all other land issues, boundaries, history of ownership, easements etc... The question that should be part of the family discussion is does the family want the burial site attached to their legal description (made of public record) to help ensure the protection of their family burial site into the future. Robin noted the notice for recording is not required but recommended.
- Commissioner Bennett noted that he has asked Commissioner Teske to take his seat and be appointed to the Libby Asbestos Superfund Oversight Committee (LASOC). **Motion** by Commissioner Letcher to appoint Commissioner Teske to serve on the LASOC committee.
