The basis of bearing is the north section line, from the northeast section corner to the north quarter corner of section 2, derived from a solar observation as shown on C.O.S. 1105.

Method of Survey:

Conventional traverse methods, using a Leitz SET 2 total station, tying appropriate corners and computing offsets to true line.

Legal Description:

National Forest System Lands: As described on the official plat of North Troy; Lots 1, 2, and 3 of Block 1; Lots 2, 3, and 4 of Block 3. Total acreage 28.05 acres. No private lands described hereon.

Surveyor's Note:

As the southwest section corner and the west quarter corner of section 1 have been re-established by proportion, discrepancies exist between found and record position. Ira C. Miller's, 406-S, pins established in 1954 for the property line between Lots 1 and 2 of Block 3 were found to be the best available evidence of this line, though the tie to the southwest section corner supports an alternate section corner position.

I established the east line of Block 1 and 3, parallel and a record 40 feet from pins established by Ken Davis, 4947-S, in Amended Plat 4175. The northeasterly property line of Lot 3 of Block 1 was established using record angle of 39°20' intersecting the section line between the west quarter section corner and the northwest section corner of section 1. Reference should be made to the North Troy Plat No. 12 - 1918 and Amended Plat 4175 - 1984 and Plat No. 246 - 1954.

The position for the E 1/16 corner as set by J.H. Ninneman in 1983 was accepted as found.

All Deeds, Certificates of Survey and Corner Recordations are filed at the Lincoln County Courthouse, Libby, Montana.

Steep and unstable slopes necessitated setting R.M.'s.

Certificate:

I hereby certify that I am a registered Land Surveyor in the State of Montana, that the survey shown on this certificate has been prepared in accordance with the Montana code annotated (Sections 76-3-101 through 76-3-614) and the Lincoln County regulations adopted pursuant thereto.
