NOTES

1) The original creation and development of the parcels shown on Plat 7000, the westerly tract being the latter property appear to be based on the deemed location the found iron pipe and the set aliquoted brass cap over the hill, owner creation. A true alignment of the north-south centerline of the NW¼ was used for descriptions on this survey.

2) The east line of Miller was retraced by using the record distance of 154.50 feet from the intersection of the centerline of the bridge along the top of the bank of the Kootenai River thence northerly to the 1/4" steel stake near the northeast corner.

3) The right of way of Kootenai River Road is shown as 50' wide on previous surveys that were immediately adjacent to this property. Further to the east, C.O.S. 6184 and Plat 6504S and 7339S show the right of way as 60'. No deeds were found to clear up the possible discrepancy. The right of way contained in this property was held at 50' for this survey.

LEGEND

- Found corner, as noted
- Found 5/8" rebar/plastic cap - 4975-S
- Found 5/8" rebar/plastic cap - 7339S
- Set 5/8" rebar/plastic cap - 9954S
- Computed point - not set or held
- Fence line
