- Do you wonder what your \$30,000 in city tax dollars and \$60,000 in county tax dollars is paying for?
- Do you want to know what the job of a government review commission is, or what it is not?
- Do you want to know the forms of government?
- Do you want to know, or have questions?

Dan Clark, Local Government Center with Montana State University, will be in Libby to explain it all and answer your questions clearly and calmly. This is your chance, your training, and your opportunity to ask questions directly to the people that teach government across Montana.

Please forward any questions in advance to the City Administrator by emailing city.admin@cityoflibby.com or drop them off at city hall. Mr. Clark will not be commenting on the actions of the current review commissions.

Please don't miss this opportunity, it happens only once in a decade.
