TO BE KNOWN AS MARINER'S HAVEN SUBDIVISION PHASE 1 33-35

OWNER'S CERTIFICATE

We, the undersigned, hereby certify that the purpose of this survey is for the aggregation of parcels or lots when a certificate of survey or subdivision plat shows that the boundaries of the original parcels have been eliminated and the boundaries of a larger aggregate parcel are established. A restriction or requirement on the original platted lot or original unplatted parcel continues to apply to those areas. Therefore this division of land is exempt from review pursuant to section 76-3-207 (1)(f), MCA.

We also certify the purpose of this survey is for five or fewer lots within a platted subdivision, the relocation of common boundaries. Therefore this division of land is exempt from review pursuant to section 76-3-207 (1)(d), MCA.

The area that is being removed from one tract of record and joined with another tract of record is not itself a tract of record. Said area shall not be available as a reference legal description in any subsequent real property transfer after the initial transfer associated with the certificate of survey on which said area is described, unless said area is included with or excluded from adjoining tracts of record.

We also certify that Lots 1 and 2 are exempt from sanitation review by the Department of Environmental Quality pursuant to ARM 17.36.605 (3) "Aggregations of parcels are not subdivisions subject to review, except that an aggregation is subject to review under 76-4-130, MCA, if any parcel included in the aggregation has a previous approval issued under Title 76, chapter 4, part 1, MCA."

We also understand that the surveyor has made no investigative or independent search for easements of record, encumbrances, restrictive covenants, ownership title evidence, or any other facts that an accurate and current title search may disclose.

We hereby certify that the purpose of this survey is to relocate common boundaries between existing lots within a platted subdivision, that five or fewer lots are affected, and that no additional lots are hereby created. Therefore, this survey is exempt from review as a subdivision pursuant to Section 76-3-207(1)(d), MCA.

The area that is being removed from one tract of record and joined with another tract of record is not itself a tract of record [Parcel X]. Said area shall not be available as a reference legal description in any subsequent real property transfer after the initial transfer associated with the amended plat on which said area is described, unless said area is included with or excluded from adjoining tracts of record pursuant to ARM 24.183.1104(1)(f)(iii)(C).

We hereby certify that this division creates parcels of land that have no existing facilities for water supply, wastewater disposal, and solid waste disposal other than those that were previously approved by the reviewing authority under Title 76, chapter 4, part 1, if:
no facilities other than those previously approved exist or will be constructed on the parcel (Lot 1 and Lot 1AB, C. of S. No. 4508RB together with Parcel X hereon);
and the division of land will not cause approved facilities to deviate from the conditions of approval. Therefore, this division is exempt from review by the Department of Environmental Quality pursuant to ARM 17.36.605(2)(b)(i)&(ii).
